

Monthly Website QA Report

Sample Client Inc. - sample-client.example - Sample audit

Generated at: Jul 4, 2026, 8:06 AM

Audit Summary

KensaOps checked 5 public pages and recorded 13 evidence-backed findings. 2 findings are high or critical. Start with the priority table, then review reproduction steps and screenshots in each category.

AI summary status: unavailable. This report uses only template language based on saved scan results.

PAGES	FINDINGS	HIGH+	SCREENSHOTS
5	13	2	10

Priority Findings To Review

SEVERITY	FINDING	EVIDENCE
High	Controlled form endpoint failed The controlled fixture form returned HTTP 500.	https://sample-client.example/fixture-submit-fail Open https://sample-client.example/form-failure and inspect form:nth-of-type(1). KensaOps does not submit external production forms.
High	Missing page title The page does not include a title element.	https://sample-client.example/meta-missing Open https://sample-client.example/meta-missing and inspect the document head.
Medium	Broken or unreachable link The link to https://sample-client.example/missing returned 404.	https://sample-client.example/missing Open https://sample-client.example/broken and follow the link "Missing page".

SEVERITY	FINDING	EVIDENCE
Medium	Missing meta description The page does not include a meta description.	https://sample-client.example/meta-missing Open https://sample-client.example/meta-missing and inspect the document head.
Medium	Missing h1 The page does not include an h1.	https://sample-client.example/meta-missing Open https://sample-client.example/meta-missing and inspect the document head.
Medium	Missing document language The page does not declare an html lang attribute.	https://sample-client.example/a11y Open https://sample-client.example/a11y and inspect html.
Medium	Image missing alt text An image is missing an alt attribute.	https://sample-client.example/a11y Open https://sample-client.example/a11y and inspect <code>img:nth-of-type(1)</code> .
Medium	Form field missing accessible label A form field has no visible label, aria-label, or aria-labelledby reference.	https://sample-client.example/a11y Open https://sample-client.example/a11y and inspect <code>input:nth-of-type(1)</code> .

Findings By Category

Crawl

No findings in this category.

Links

Broken or unreachable link

Medium

The link to <https://sample-client.example/missing> returned 404.

Finding ID: finding_1 | Evidence: <https://sample-client.example/missing>

Reproduction: Open <https://sample-client.example/broken> and follow the link "Missing page".

Forms

Controlled form endpoint failed

High

The controlled fixture form returned HTTP 500.

Finding ID: finding_2 | Evidence: <https://sample-client.example/fixture-submit-fail>

Reproduction: Open <https://sample-client.example/form-failure> and inspect form:nth-of-type(1). KensaOps does not submit external production forms.

Required field missing label

Medium

Required field "email" has no accessible label.

Finding ID: finding_13 | Evidence: <https://sample-client.example/ok>

Reproduction: Open <https://sample-client.example/a11y> and inspect form:nth-of-type(1). KensaOps does not submit external production forms.

Title / meta / OGP

Missing page title

High

The page does not include a title element.

Finding ID: finding_3 | Evidence: <https://sample-client.example/meta-missing>

Reproduction: Open <https://sample-client.example/meta-missing> and inspect the document head.

Missing meta description

Medium

The page does not include a meta description.

Finding ID: finding_4 | Evidence: <https://sample-client.example/meta-missing>

Reproduction: Open <https://sample-client.example/meta-missing> and inspect the document head.

Missing h1

Medium

The page does not include an h1.

Finding ID: finding_5 | Evidence: <https://sample-client.example/meta-missing>

Reproduction: Open <https://sample-client.example/meta-missing> and inspect the document head.

Missing canonical URL

Low

The page does not include a canonical link.

Finding ID: finding_6 | Evidence: <https://sample-client.example/meta-missing>

Reproduction: Open <https://sample-client.example/meta-missing> and inspect the document head.

Incomplete OGP metadata

Low

The page is missing one or more basic OGP tags.

Finding ID: finding_7 | Evidence: <https://sample-client.example/meta-missing>

Reproduction: Open <https://sample-client.example/meta-missing> and inspect the document head.

Performance signals

No findings in this category.

Accessibility basics

Missing document language

Medium

The page does not declare an html lang attribute.

Finding ID: finding_8 | Evidence: <https://sample-client.example/a11y>

Reproduction: Open <https://sample-client.example/a11y> and inspect html.

Image missing alt text

Medium

An image is missing an alt attribute.

Finding ID: finding_9 | Evidence: <https://sample-client.example/a11y>

Reproduction: Open <https://sample-client.example/a11y> and inspect `img:nth-of-type(1)`.

Form field missing accessible label

Medium

A form field has no visible label, aria-label, or aria-labelledby by reference.

Finding ID: finding_10 | Evidence: <https://sample-client.example/a11y>

Reproduction: Open <https://sample-client.example/a11y> and inspect `input:nth-of-type(1)`.

Interactive element missing accessible name

Medium

A button or link has no text, title, or aria-label.

Finding ID: finding_11 | Evidence: <https://sample-client.example/a11y>

Reproduction: Open <https://sample-client.example/a11y> and inspect `button:nth-of-type(1)`.

Heading level skip

Medium

Heading jumps from h1 to h3.

Finding ID: finding_12 | Evidence: <https://sample-client.example/a11y>

Reproduction: Open <https://sample-client.example/a11y> and inspect `h3:nth-of-type(2)`.

Scope And Limitations

- This report is based on public pages that were reachable at scan time and checked in read-only mode.
- External production forms were not submitted. Only explicitly configured controlled test forms are exceptions.
- Accessibility findings are basic automated signals and are not a legal compliance guarantee.

- Performance findings are browser-measured signals from this scan run, not certified Core Web Vitals field data.
- A live AI summary is unavailable or unverified, so this report does not include an AI-written summary.

Created with KensaOps. Based on read-only evidence from public-page checks and not a legal compliance guarantee.
